**CHRISTIAN SCIENTISTS CAN STUDY
 SCIENCE IN A WAY OTHER SCIENTISTS
 CAN'T.**

Would you like to walk on the moon or fly in a space shuttle? Have you considered becoming a scientist? Scientists get to study all sorts of amazing things. And Christian scientists can study science in a way other scientists can't. Knowing who God is and what He said in His Word, the Bible, is where knowledge really begins!

Is God Dead?

*For the Lord is good and his love endures forever;
 his faithfulness continues through all generations.*
 Psalms 100:5

Some people in our high-tech, modern world question God's existence. Some are wondering if God is dead. Some believe God has changed and is not the same God we read about in the Bible.

Rest assured that God is alive. He is eternal. He has no beginning and no end. He does not change. He is the same yesterday, today and forever.

The Lord our God is good. His love and his faithfulness endure forever – through all generations.

I hope you will take time to learn more about God and his will for you. You can start by reading the first few chapters of Genesis. Then read one of the four gospels (Matthew, Mark, Luke or John). Next, I suggest you read about the early church and the first Christians in the book of Acts. Try to read the Bible with an open mind and a desire to know the truth – God's truth.

*...the grass withers and the flowers fall,
 but the word of the Lord stands forever.*
 1 Peter 1:24-25

God shares his wisdom and his will for us in the Bible. The Bible continues to be the number one selling book in the world – despite thousands of efforts throughout history to destroy every copy. No matter what men attempt to do, God and his word will last forever – through all generations.

Don't just **GO** to church; **BE** the church
