### Sticky Feet – God's Amazing Design

What living creature comes in an assortment of brilliant colors, uses its tongue to clean and moisten its eyes, has feet that can stick to most surfaces, and is being studied by one of the largest car manufacturers in the world? The answer is the gecko, a type of reptile!

How do geckos scamper up walls and across ceilings, sticking to most surfaces? Many types of geckos have millions of tiny hairs on their toe pads that are called setae. These hairs allow the gecko to attach to surfaces directionally. In other words, if a gecko is stuck to a surface and moves its toes in the opposite direction, it easily detaches!

Where did this ingenious design come from? It's easy to see that a design this complex requires a Creator. The Bible says that God designed land creatures, which would include the gecko, on Day Six of the Creation Week.

### **God's Embroidery**

When I was a little boy, my mother used to embroider a great deal. I would sit at her knee and look up from the floor and ask what she was doing. She informed me that she was embroidering. I told her that it looked like a mess from where I was, the underside. I watched her work within the boundaries of the little round hoop that she held in her hand.

She would smile at me, look down and gently say, "My son, you go about your playing for a while, and when I am finished with my embroidering, I will put you on my knee and let you see it from my side."

I would wonder why she was using some dark threads along with the bright ones and why they seemed so jumbled from my view.

A few minutes would pass and then I would hear Mother's voice say, "Son, come and sit on my knee."

This I did, only to be surprised and thrilled to see a beautiful flower or a sunset.. I could not believe it, because from underneath it looked so messy.

Then Mother would say to me, "My son, from underneath it did look messy and jumbled, but you did not realize that there was a pre-drawn plan on the top. It was a design. I was only following it. Now look at it from my side and you will see what I was doing."

Many times through the years I have looked up to my Heavenly Father and said, "Father, what are You doing?"

He has answered, "I am embroidering your life."

I say, "But it looks like a mess to me. It seems so jumbled. The threads seem so dark. Why can't they all be bright?"

The Father seems to tell me, "My child, you go about your business of doing My business, and one day I will bring you to Heaven and put you on My knee and you will see the plan from My side."
