

Calvary Christian Fellowship Mennonite Church

April 28, 2013

✚✚✚ Welcome to our Worship Service! ✚✚✚

Devotional:----- Loren Yoder
Message:----- Ervin Yoder
Offering:----- School
SS Lesson:----- 2 Corinthians 4

Adult and Youth Verse: But have renounced the hidden things of dishonesty, not walking in craftiness, nor handling the word of God deceitfully; but by manifestation of the truth commending ourselves to every man's conscience in the sight of God. 2 Cor. 4:2

Intermediate Verse: "Their idols are silver and gold, the work of men's hands. They have mouths, but they speak not: eyes have they, but they see not." Ps. 115: 4,5

Junior Verse: Be still, and know that I am God: I will be exalted among the heathen, I

Today's Host Family: Robert & Rachel Martin

will be exalted in the earth. Ps. 46:10

Primary Verse: "This is my beloved Son, in whom I am well pleased." Matt. 3:17

Preschool Verse: "This is my beloved Son" Matt. 3:17

SS Lesson for next week:
2 Corinthians 5

Adult and Youth Verse for next week: And that he died for all, that they which live should not henceforth live unto themselves, but unto him which died for them, and rose again. 2 Cor. 5:15

Next Sunday Hosts: Michael & Virginia Yoder

What Is Science? Excerpt from the Museum Guide November 9, 2012

The kind of science that we normally think of as science (called "operational science") is a wonderful tool that helps researchers discover new vaccines, find new kinds of fish in previously-uncharted waters, build more fuel-efficient cars, chart a course to other planets, and devise new treatments for old diseases. With this kind of science, people can uncover fossils or study the composition of rocks.

However, operational science has limitations. It can't, for example, tell us where fish came from, when the rock formed in the first place, or how the bones of the creature came to be fossilized. Operational science deals with the world of today. It involves testing and repeating experiments.

Origins science deals with the past. Origins or historical science is used to reconstruct events that have happened in the past, using principles such as causality (for every effect, there must be a cause)

and analogy (if this is the way it happens today, then perhaps it happened like this in the past). Of course, the best method of reconstruction is to rely on the account of an accurate eyewitness.

Naturalists have no such eyewitness to rely on. However, the Bible provides a written record of an eyewitness to (who was also intimately involved in) history—the Creator God. This eyewitness cannot lie, so His account is completely trustworthy. We can use this written record as our foundation for understanding the world around us. This will help us to understand why the world is the way it is today and to make sense of where we came from and why we're here.

As you go through the museum, be sure to look for statements which fall under operational science—e.g., "this fossil was found in Montana"—and statements which fall under origins science—e.g., "this fossil is 65 million years old."

Announcements:

- ✓ This Evening: A Farewell is planned for the Elam Nissley family at 6:30 at the schoolhouse.
- ✓ Wednesday Evening: Prison Service (Northwest) 5:30 PM. To go: Jonathan, Ralph & Dennis.

~BIRTHDAYS AND ANNIVERSARIES~

(today!) April 28, Happy Birthday! Fannie Nissley, 1971

(today!) April 28, Happy Birthday! Doreen Nissley, 1999

April 29, Happy Birthday! April Nissley, 1993

May 1, Happy Birthday! Pauline Yoder, 1960

May 1, Happy Birthday! Mary K. Miller, 1970

May 4, Happy Anniversary! James ♥ Elsie, 2007

Caretakers –

In the 50th Psalm, verse 10 tells us that God owns the cattle on a thousand hills. Not only does God own the cattle, he also owns the hills. In verse 12, God says, ". . . for the world is mine, and all that is in it."

God created and, therefore, owns all that we see around us. As ranchers and cattlemen we are only caretakers, responsible for the well-being of the land and the cattle God has entrusted to us. That is an awesome responsibility, but most of us feel very fortunate to be able to do what we are doing. Millions of people in this country and around the world would jump at an opportunity to trade places with us. God has been good to us and we have much to be thankful for.

Take time to visit with God today. Thank him for the many blessings you have received. Don't forget that many of the blessings you received came with responsibilities.

Don't just GO to church; BE the Church

Comment on your song on youtube: "My Jesus Knows Just what I need"

I had to chuckle with a warm smile. I'm working in Mexico, away from home (Kalona Iowa) and was cleaning the apartment wanting to be in worship. I thought, why not listen to some wonderful music so I YouTube'd acapella worship music. Up on the screen I see coverings.. I have to grin.... then they appeared Beachy... at least for Kalona... then I saw an American flag...then I read "Methodist".. just grinned and was blessed !!! PTL
