The most popular naturalistic explanation about the origin of the universe is the big bang hypothesis. At its simplest, this view suggests that the universe emerged rapidly from a hot, dense state several billions of years ago. However, there are several differing versions of the big bang idea, with disagreement among the versions. As one scientist has pointed out, there are many problems with this view.

Big bang cosmology is probably as widely believed as has been any theory of the universe in the history of Western civilization. It rests, however, on many untested, and in some cases untestable, assumptions. Indeed, big bang cosmology has become a bandwagon of thought that reflects faith as much as objective truth. (G. Burbidge, "Why only one big bang?" Scientific American 266:2, 1992, p. 96.)

Eventually, according to the naturalistic worldview, our solar system originated from a spinning cloud of gas (this idea is known as the "nebular hypothesis"). As with the big bang idea, the nebular hypothesis has many scientific problems and runs counter to the biblical teaching.

Dealing with Debt

-by Max Lucado

Doesn't someone owe you an apology? A second chance? An explanation? A thank you? A childhood? A marriage? Your parents should have been more protective. Your children should have been more appreciative. Your spouse should be more sensitive. What are you going to do? Few questions are more important.

Dealing with debt is at the heart of your happiness. Jesus speaks of the grace we should share. He says: "For if you forgive men when they sin against you, your heavenly Father will also forgive you" (Matthew 6:14)

It reminds me of the story of a huge grizzly bear in the center of Yellowstone Park feeding on discarded camp food. No one dared draw near. Except a skunk who walked toward the food and took his place next to the grizzly. The bear didn't object. He knew the high cost of getting even! We'd be wise to learn the same thing.

"Ten seconds looking directly at the sun will blind human eyes, and yet the ignorant and the arrogant demand to see Him who had the power to make it."
- Ray Comfort

"The Bible is the world's most hated, the most lied about, and most feared Book ever written." "Evil men have tried to destroy the Bible, ignore it, malign it, and yet it stands tall as a great mountain of truth among the feeble anthills of secular literature." - Ray Comfort

"God's love is hidden from the world by the dark clouds of sin. The new birth jettisons the sinner like a missile through the clouds." ~ Ray Comfort

-The lovely scent of forgiveness results when a flower is crushed and gives back to the very one that crushed it.
