-The Polar Bear (January 1, 2007)

Polar Bear

Polar bears, also known as "sea bears," are adorable. But beware: these animals are the LARGEST of all the bears. They can weigh up to 1,700 pounds (771 kg) and can grow up to 11 feet (3.4 m) tall. These bears are very smart hunters and excellent swimmers.

Bears were created by God on Day 6 about 6,000 years ago. That's when God made all the land animal kinds.

The polar bear's skin is black. It helps keep them warm. Their heavy fur only LOOKS white to help them blend into the snow.

Big paws help polar bears swim, sometimes over 50 miles (80 km) without a rest. Kids Answers <http://goo.gl/PACn6s>

Is It Narrow Minded?

I don't know about you, but I get a little weary of hearing the word "narrow" used as a slur against preachers who adhere to the Bible in their preaching. Sure they are "narrow," but so are factory workers, surgeons, druggists, and teachers.

The factory worker is so "narrow" that he uses micrometers and measures to the thousandth of an inch the bores and pistons of engines, electronic components and balancing wheels in timepieces.

The surgeon is so "narrow" that he insists on ultra-technical laboratory analysis and meticulously sterilized instruments of special design. Why is he so "picky narrow" that he makes his assistants wear cloths over their faces?

The druggist is so "narrow" that he just has to have a prescription before he will let you have certain drugs. He says he has to be "narrow" because government regulations are narrow, and even thinks it is for your good!

As you think about it, it's a blessing that somebody is "narrow-minded." And however much we need to be narrow about vital material matters, we must be infinitely more careful and exact about spiritual laws. God will not be mocked! - *Jere Frost*
