## Fooling

December 11, 2013

Patterns and colors can also confuse other animals. Some animals use their disguises to fool predators, and some use them to trick their victims. **Common Cuckoo**

Female cuckoos don't make their own nests to lay eggs in. Instead, they swoop in and use another bird's nest. The bars on their bellies give them the look of a hungry sparrowhawk, and this disguise scares away a mother bird long enough to lay an egg.

## A Monkey and a Typewriter

How long would it take lifeless chemicals under ideal conditions to evolve into a living protozoan? Answer: it could never happen!

Let's simplify the problem. How long would it take a monkey, pounding irrationally and randomly at a typewriter, to come up with the words of Genesis 1:1 ("In the beginning God created the heavens and the earth")? In fact, let's allow a million tireless monkeys to pound away at record speed (twelve keys a second) on simplified typewriters with only capital letters.

Now, try to think of a rock so large that if the earth were at its center its surface would touch the nearest star. This star is so far away that light from it takes more than four years to get here, traveling 186,000 miles every second.

If a bird came once every million years and removed an amount equivalent to the finest grain of sand, four such rocks would be worn away before the champion super simians would be expected to type Genesis 1:1."

God's great handiwork baffles the greatest minds ever produced. His glory and his power are beyond the capability of man to comprehend and appreciate. "The heavens declare the glory of God; and the firmament showeth his handiwork. Day unto day uttereth speech, and night unto night showeth knowledge" (Psalm 19:1-2).

"We tend to use prayer as a last resort, but God wants it to be our first line of defense. We pray when there's nothing else we can do, but God wants us to pray before we do anything at all.

Most of us would prefer, however, to spend our time doing something that will get immediate results. We don't want to wait for God to resolve matters in His good time because His idea of 'good time' is seldom in sync with ours."
