### Making a BIG Deal Out of Small Things

You only have to look outside to be struck by the beautiful things God made. But that beauty doesn't stop with what your peepers can see. Zooming in with a microscope shows a whole new world of awesome (don't be surprised if your jaw drops a time or two).

#### Gecko Foot

Hairy feet may not seem like such a great thing to us. But gecko toes have millions of tiny hairs that split at the ends into even tinier strands. The molecules on the strands latch onto pretty much any surface and help these lizards walk upside down.

## Confidence

If you have ever been in a restaurant and watched a chef make an omelet, you would probably have seen him (or her) hold two eggs in one hand and crack them with amazing confidence. If a child has the confidence that he can ride a bike, he will. It's the same with skiing down a slope, surfing a big wave, and most things in this life. Believing that you can do something is the first step, the key to success in this world—any motivational speaker will tell you that.

However, the key to success in Christianity is the opposite. It says not to have confidence in yourself. Instead, we are to have absolute confidence in

God. Scripture even says "He who trusts his own heart is a fool." The middle verse of the Bible says "It is better to trust in the Lord than to put confidence in man."

Beware of the foolish wisdom of this world that will tell you the opposite. The fruit of their godless counsel will be seen on the national news tonight. The Scriptures say that you are blessed if you turn a deaf ear to their advice: "Blessed in the man who walks not in the counsel of the ungodly" (Psalm 1). "In God we trust, all others pay cash" isn't such a bad way to do business.
