

# Calvary Christian Fellowship Mennonite Church

June 29, 2014

✝ ✝ ✝ Welcome to our Worship Service! ✝ ✝ ✝

**Devotional:**----- Leon Wagler & Sylvan Yoder  
**Message:**----- Chester Weaver  
**Offering:**----- Alms

**SS Lesson for next week:** Proverbs  
29:1-27

**Ault and Youth Verse for next week:**  
Where there is no vision, the people perish: but he that keepeth the law, happy is he. Prov. 29:18

**Today's Host:** Fellowship Lunch.  
Everyone welcome!

**Next Sunday Host:** Ervin & Louise Yoder

### A Fin with a Function (June 23, 2012)

The fish in many fish families have a small fin on their backs, called an adipose fin, located between the large dorsal fin and the tail fin. For years researchers believed the fin was a useless leftover from the fish's supposed evolutionary past, so at salmon hatcheries they would clip the fins as a harmless way to mark each fish so they knew where it spawned.

But a marine biologist in Canada noticed that fish jerked when the fin was cut. After further investigation, he discovered that these fish had to work harder to swim, putting the altered salmon at a disadvantage in the wild.

In fact, the adipose fin contains a network of nerves that likely serves as a sensory organ. Clipping the fin may decrease the salmon's ability to navigate turbulent waters.\*

In this instance, it looks like evolutionary assumptions led hatcheries to handicap the very fish they had hoped to save.

Recently marine biologists noticed the importance of a seemingly useless small fin on the backs of salmon.

## Announcements:

- ✓ This Evening: Services at 7:00.
- ✓ Wednesday Evening: Prison Service (Northwest) 5:30 PM. To go: Mike, Elmer & Jonathan- devotions.

## ~BIRTHDAYS AND ANNIVERSARIES ~

July 2, Happy Birthday! Ervin Yoder, 1942  
July 3, Happy Birthday! Leandra Yoder, 2007  
July 5, Happy Birthday! Virginia Nissley, 2006  
July 5, Happy Birthday! BrendaLou Miller, 2007

## Colors create moods.

Ask any fashion designer. Blue makes us feel good--who could deny that in the face of a clear blue sky? Green gives us a sense of peace; and red alarms us. That's why stop signs are red. If you visited my house and I had red carpet, red walls, a red ceiling, and I was wearing a red suit, you would soon see red.

God made blood the color red for a reason. It's alarming to see anyone's blood spilled because the life of our flesh is in our blood. Lose your blood and you lose your life. This is something science has discovered, but a truth the Bible stated 3,000 years ago: "For the life of the flesh is in the blood..." (Leviticus 17:11).

...Just another scientific fact written in the Bible, proving that the Scriptures are inspired by God.  
Ray Comfort

### Scientific Facts in the Bible

An elderly lady once left \$20,000 and "my Bible and all it contains" to her nephew. The young man knew what the Bible contained so he didn't bother to open it. He merely picked it up and put it on a high shelf in his house, and headed for Las Vegas.

It wasn't long until all his money was gone. He lived the next 60 years as a pauper, scraping for every meal and barely having the clothes on his back.

As he was moving to a convalescent home he

reached up to grab that old Bible and accidentally dropped it from his trembling hands. It fell to the floor and opened, revealing a \$100 bill between every page.

That man lived his life as a pauper when he could have lived in luxury, simply because of his prejudice. He thought he knew what the Bible contained.

Most people don't know that the Bible contains a wealth of incredible scientific, medical and prophetic facts. The implications are mind boggling.
