Living Lights in the Deep

Deep in the ocean, the sunshine is dim or never sheds its light. Yet everything is not pitch black. Green, blue, yellow, and red lights sparkle from an unexpected source—living creatures.

When Light Comes to Life

If you rode in a submarine to the bottom of the ocean, the sun would disappear, and the dark water would swallow you. But light is not missing down there.

God gave creatures of all shapes and sizes the ability to glow in colorful displays. From jellyfish to squid to fish with big, sharp teeth, many animals have special features that truly glow in the dark.

They're living, breathing lights!

True Evangelical Faith

True evangelical faith is of such a nature it cannot lie dormant, but spreads itself out in all kinds of righteousness and fruits of love. It dies to flesh and blood; it destroys all lusts and forbidden desires; it seeks, serves, and fears God in its inmost soul; it clothes the naked; it feeds the hungry; it comforts the sorrowful; it shelters the destitute; it aids and consoles the sad; it does good to those who do it harm; it serves those that harm it; it prays for those who persecute it; it teaches, admonishes, and judges us with the Word of the Lord; it seeks those who are lost; it binds up what is wounded; it heals the sick; it saves what is strong (sound); it becomes all things to all people. The persecution, suffering, and anguish that come to it for the sake of the Lord's truth have become a glorious joy and comfort to it.
