

# Calvary Christian Fellowship Mennonite Church

## Welcome to our Worship Service!

April 26, 2015

Devotional:----- Jay Ahmed  
 Message:----- Ervin Yoder  
 Offering:----- School  
 SS Lesson:----- 1 Thessalonians 2

**Adult and Youth Verse:** That ye would walk worthy of God, who hath called you unto his kingdom and glory. 1 Thess. 2:12

**Intermediate Verse:** But they hearkened not, nor inclined their ear, but walked in the counsels and in the imagination of their evil heart, and went backward, and not forward. Jer. 7:24

**Junior Verse:** "Heaven and earth shall pass away: but my words shall not pass away." Mark 13:31

**Primary Verse:** "Blessed are the meek: for they shall inherit the earth" Matt. 5:5

**Preschool Verse:** "Blessed are the merciful" Matt. 5:7

**SS Lesson for next week:** 1 Thessalonians 3

**Adult and Youth Verse for next week:** And the Lord make you to increase and abound in love one toward another, and toward all men, even as we do toward you: 1 Thess. 3:12

#### Overview of Natural History: The Big Bang

The most popular naturalistic explanation about the origin of the universe is the big bang hypothesis. At its simplest, this view suggests that the universe emerged rapidly from a hot, dense state several billions of years ago. However, there are several differing versions of the big bang idea, with disagreement among the versions.

As one scientist has pointed out, there are many problems with this view.

Big bang cosmology is probably as widely believed as has been any theory of the universe in the history of Western civilization. It rests, however, on many untested, and in some cases untestable, assumptions. Indeed, big bang cosmology has become a bandwagon of thought that reflects faith as much as objective truth. (G. Burbidge, "Why only one big bang?" Scientific American 266:2, 1992, p. 96.)

Eventually, according to the naturalistic worldview, our solar system originated from a spinning cloud of gas (this idea is known as the "nebular hypothesis"). As with the big bang idea, the nebular hypothesis has many scientific problems and runs counter to the biblical teaching. -Kids Answers, <https://answersingenesis.org/kids/evolution/overview-of-natural-history-the-big-bang/>

## Announcements:

- This Evening: Free Evening
- Wednesday Evening: Prison Service (NRU) 5:00 PM. to go: Everett, Robert & Elmer – Devotions.
- Tues is last day of School. Picnic has been planned for Sat PM May 2<sup>nd</sup> you will be notified later on time & details.

### ~BIRTHDAYS AND ANNIVERSARIES ~

April 28, Happy Birthday! Fannie Nissley, 1971  
 April 28, Happy Birthday! Doreen Nissley, 1999  
 April 29, Happy Birthday! April Nissley, 1993  
 May 1, Happy Birthday! Pauline Yoder, 1960  
 May 1, Happy Birthday! Mary K. Miller, 1970

At this moment, your liver, kidneys, heart, pancreas, salivary glands, etc., are all working to keep your body going. You don't even have the power to switch them off and on. As you sleep tonight, your heart will pump seventy-five gallons of blood through your body each hour.

The focusing muscles in your eyes move an estimated 100,000 times each day. The retina, covering less than a square inch, contains 137 million light-sensitive cells. Even a wide-eyed Charles Darwin said, "To suppose that the eye could have been formed by natural selection, seems I freely confess, absurd in the highest degree."

Creation reflects the genius of the

Creator's hand. Explain how a sparrow knows it is a sparrow and stays with its kind, or how a baby knows to look into the eyes of its mother when no one has taught it to do so. How was a wasp made so that its wings flap at 100 times every second, or the house fly at 190 per second, or the mosquito at an amazing 500 times every second?

The most godless must have a sense of awe and wonder when standing beneath the mighty power of Niagara Falls, gazing into the Grand Canyon, or staring into the infinity of space. How much more should we be humbled by the Maker of these things.

Ray Comfort

A man is recovering from surgery when the surgical nurse appears and asks him how he is feeling. "I'm okay but I didn't like the four-letter words the doctor used in surgery," he answered. "What did he say??" asked the nurse. "Oops!"
