

Calvary Christian Fellowship Mennonite Church

Welcome to our Worship Service!

June 28, 2015

Devotional:----- Dean Yoder
 Message:----- Henry Nissley
 Offering:----- School
 SS Lesson:----- 1 Timothy 3

Adult and Youth Verse: But if I tarry long, that thou mayest know how thou oughtest to behave thyself in the house of God, which is the church of the living God, the pillar and ground of the truth. 1 Tim. 3:15

Intermediate Verse: But ye are a chosen generation, a royal priesthood, an holy nation, a peculiar people; that ye should shew forth the praises of him who hath called you out of darkness into his marvellous light; 1 Pet. 2:9

Junior Verse: Wherefore putting away lying, speak every man truth with his neighbour: for we are members one of another. Eph. 4:25

Primary Verse: And if I go and prepare a place for you, I will come again, and receive you unto myself; that where I am, there ye may be also. Jn. 14:3

Preschool Verse: "Every eye shall see him" Rev. 1:7

SS Lesson for next week: 1 Timothy 4

Adult and Youth Verse for next week: Let no man despise thy youth; but be thou an example of the believers, in word, in conversation, in charity, in spirit, in faith, in purity. 1 Tim. 4:12

Hummingbird

God designed the bill of the hummingbird to be a long, slender tube. This allows the bird to go deep into flowers to extract the nectar. It also has a long tongue that is curled on its edges, forming two trays to collect the nectar. When the bird has collected the nectar, it will retract its tongue and squeeze the nectar into its throat. North American hummingbirds migrate long distances, some crossing the Gulf of Mexico.

Hummingbirds are known for their long bills, dazzling colors, and speedy wings.

Hummingbirds are the smallest birds in the world, and the smallest hummingbird is the bee hummingbird, which occurs in Cuba and the Isle of Pines. It weighs approximately 0.06 ounces (1.6 g), less than a U.S. penny.

One species of hummingbird can fly up to 93 mph (150 km/h) during short chase flights, but they can beat their wings even faster, up to 200 times per second. A hummingbird takes in an incredible amount of calories daily. If humans ate the same amount as a hummingbird, we would have to ingest almost 155,000 calories a day. That's 77 times more than most humans eat.

Hummingbirds are like helicopters; they can go up, down, forward, backward, and side to side with great precision.-Kids Answers

Announcements:

- This Evening: Free
- Wednesday Evening: Prison Service (Northwest) 5:30 PM. Robert, James, Jonathan-Devotions

~BIRTHDAYS AND ANNIVERSARIES~

July 2, Happy Birthday! Ervin Yoder, 1942

July 3, Happy Birthday! Leandra Yoder, 2007

Growing Older –

*The glory of young men is their strength;
gray hair the splendor of the old.*

Proverbs 20:29

Although there are some shortcomings and disadvantages to growing old, it is better than the alternative. I'm beginning to understand that there is a certain amount of splendor to growing older. I'm thankful for the life that God has blessed me with. I'm thankful for my family and my friends. I'm thankful for both the good times and the bad times. I can look back on my life and see evidence of God's presence and intervention over and over again. I have been truly blessed.

As a youth, I thought I might live forever. However, as I grow older, I realize that death is inevitable. Many have already gone before me. It's only natural for people to fear death because they don't know what lies on the other side. There was a time when I was afraid of death, but no more. I belong to God. By his grace I have been saved. I know that when I leave this life and this world I will enter into a new and eternal life that is far better than anything I could ever imagine.

Growing old is a normal part of life. I thank God for each and every day that he gives me. By the way, today is my birthday. (Sat June 27th) I am spending it with Tucker and Tater (2 Horses) at the cabin – surrounded by God's amazing and magnificent creation.
