

# Calvary Christian Fellowship Mennonite Church

## Welcome to our Worship Service!

September 13, 2015

Devotional:----- Everett Yoder  
 Message:----- Henry Nissley  
 Offering:----- General  
 SS Lesson:----- Titus 2

**Adult and Youth Verse:** Teaching us that, denying ungodliness and worldly lusts, we should live soberly, righteously, and godly, in this present world; Titus 2:12

**Intermediate Verse:** Take heed, brethren, lest there be in any of you an evil heart of unbelief, in departing from the living God. Heb. 3:12

**Junior Verse:** We therefore ought to receive such, that we might be fellowhelpers to the truth. 3 John 8

**Primary Verse:** "For where envying and strife

is, there is confusion and every evil work." Jam. 3:16

**Preschool Verse:** "Thou shalt love thy neighbor as thyself" Mk. 12:31

**SS Lesson for next week:** Titus 3

**Adult and Youth Verse for next week:** Not by works of righteousness which we have done, but according to his mercy he saved us, by the washing of regeneration, and renewing of the Holy Ghost; Titus 3:5

### WITH A NAME LIKE THE "DEAD SEA," YOU WOULD THINK THAT NOTHING COULD LIVE THERE.

With a name like the "Dead Sea," you would think that nothing could live there. But scientists have discovered something interesting living at the bottom of the Dead Sea—bacteria!

This is a surprise because the Dead Sea is extremely salty—even more salty than the ocean. "The lake's saltiness means that larger organisms such as fish and frogs can't survive in the Dead Sea. But a high concentration of magnesium also makes it surprising to find microbes in the lake."1

During a diving expedition to the Dead Sea, scientists discovered bacteria that can actually survive and thrive in these conditions! The scientists were surprised to find fresh water pouring out of larger craters on the floor of the sea. This fresh water creates an environment where tiny bacteria can survive. Even when water currents change the conditions around the craters, these bacteria have an amazing ability to adjust to their environment.

How do these bacteria survive? Dr. Elizabeth Mitchell states, "God has equipped microorganisms with amazing adaptive abilities so that they can survive in changing conditions and continue to fulfill their niches in God's Creation. . . He even created a form of life that can survive in the depths of the inhospitable Dead Sea."2

## Announcements:

- Morning-side singing at 2PM, Youth are invited to Henry's for lunch today.
- This Evening: Free Evening.
- Wednesday Evening: Prison Service (Annex) 4:15 PM. To go: Mike, Jason, & Jonathan-Devotions.
- School devotions this week by: Jonathan Miller
- Hot Lunch at School this week by James Yoders and Steve Nissleys.
- Church Social Thursday evening at 6:30.

### ~BIRTHDAYS AND ANNIVERSARIES ~

(today!) Sept. 13, Happy Birthday! Dean Yoder, 1991  
 Sept. 16, Happy Birthday! Wilson Yoder, 2010

"A Bible that's falling apart usually belongs to someone who isn't."  
 —Charles Spurgeon

\*\*\*\*\*

There was a big fuss some time ago in Sweden about lasagna and burgers containing horse meat.

Sweden is atheist heaven, and so there shouldn't be any hard and fast table manners—other than "if it tastes good, eat it."

So why aren't cats and horses on restaurant menus in most countries? It's because Judeo/Christian nations base what is right and wrong to eat on the rules God gave to the Jews.

But if atheism has its way, we can expect restaurants to expand their menus to include eagle-wings, double-double whale burgers, fresh cat casseroles, and tasty little kitten fingers. When any nation forsakes God, it defaults to mob rule (what society dictates) and that can go anywhere it wants.
