

# Calvary Christian Fellowship Mennonite Church

Welcome to our Worship Service!

December 30, 2018

Devotional:----- Galen Kauffman

Message:----- Elmer Yoder

Offering:----- Alms

SS Lesson:----- 1 Tim. 4

**Adult and Youth Verse:** Let no man despise thy youth; but be thou an example of the believers, in word, in conversation, in charity, in spirit, in faith, in purity. 1 Timothy 4:12

**Intermediate Verse:** But my servant Caleb, because he had another spirit with him, and hath followed me fully, him will I bring into the land whereinto he went; and his seed shall possess it. Numbers 14:24

**Junior Verse:** Wherefore putting away lying, speak every man truth with his neighbour: for we are members one of another. Ephesians 4:25

**Primary Verse:** I will come again, and receive you unto myself; that where I am, there ye may be also. John 14:3

**Preschool Verse:** Every eye shall see him. Revelations 1:7

**SS Lesson for next week:** 1 Tim. 5

**Adult and Youth Verse for next week:** I charge thee before God, and the Lord Jesus Christ, and the elect angels, that thou observe these things without preferring one before another, doing nothing by partiality. 1 Tim. 5:21

### Camels

- Camels have a life of 40 to 50 years.
- There are two types of camels i.e. dromedary (single-humped) and Bactrian (two-humped)
- Camels measure about 7 feet up to their hump and 6 feet up to their shoulders.
- Camels are a source of milk, wool and meat and are used for transportation or carrying heavy loads too.
- Camels have a thick coat on their body which insulates them from heat and extreme cold, making them suitable for deserts.
- Camels can survive up to six months without water or food due to the fatty tissues stored in their humps.
- The fatty tissues in a camel's humps can be converted into energy or water as and when required.

- Camels can drink 113 liters of water within 13 minutes and are the fastest mammals to re hydrate.
- Camels have long legs which help them to stay above the hot desert surface.
- Dromedary camels weigh between 300 to 600 kg while Bactrian camels can weigh up to a maximum of 1000 kg.

### Plans for the New Year

Counting today, there are only two days left in 2018. As we begin a new year, many of us will take time to reflect on the past and to make plans for the future. Today, I would like to encourage and challenge you to make sure God has a place in your future plans.

**Commit to the Lord whatever you do, and your plans will succeed.**

**Prov. 16:3**

People often struggle over what they should do and/or where they should go. They wish God would speak to them so they could make the right decisions. God can open and shut doors to help guide and direct us, but he doesn't always choose to do so. More often than not, though, God wants us to make a decision and step out on faith. I have come to the conclusion that as long as God has a part in our plans, they stand an excellent chance of succeeding.

**Don't just GO to church; BE the Church**

**Kit Pharo Pharo Cattle Co. Website: [www.PharoCattle.com](http://www.PharoCattle.com)**

*Happy New Year!*

## **Mission & Vision Statement Of: Calvary Christian Fellowship**

**Mission:** To realize our need of Christ.

To help one another on life's journey.

**Vision:** To surrender to Christ our Head, to walk in the Spirit, to love as Jesus loves.

To be a place where it's safe to share failures, struggles, hopes, and dreams.

To encourage, and empower one another to find God's purpose as we walk with Christ on our journey to Heaven.

To help the hurting find healing, and the lost experience salvation, in Christ.

To assist in physical needs among, and around us.
